SIMATS ENGINEERING

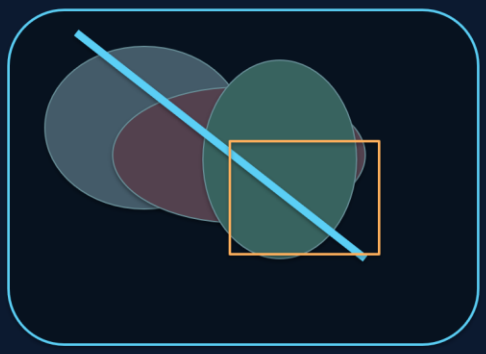

SIMATS

ITA0501-COMPUTER VISION

Computer Vision in Robotic Surgery

PRESENTED BY:
NAME:SUMETHA SRI.S
REG NO:192521097

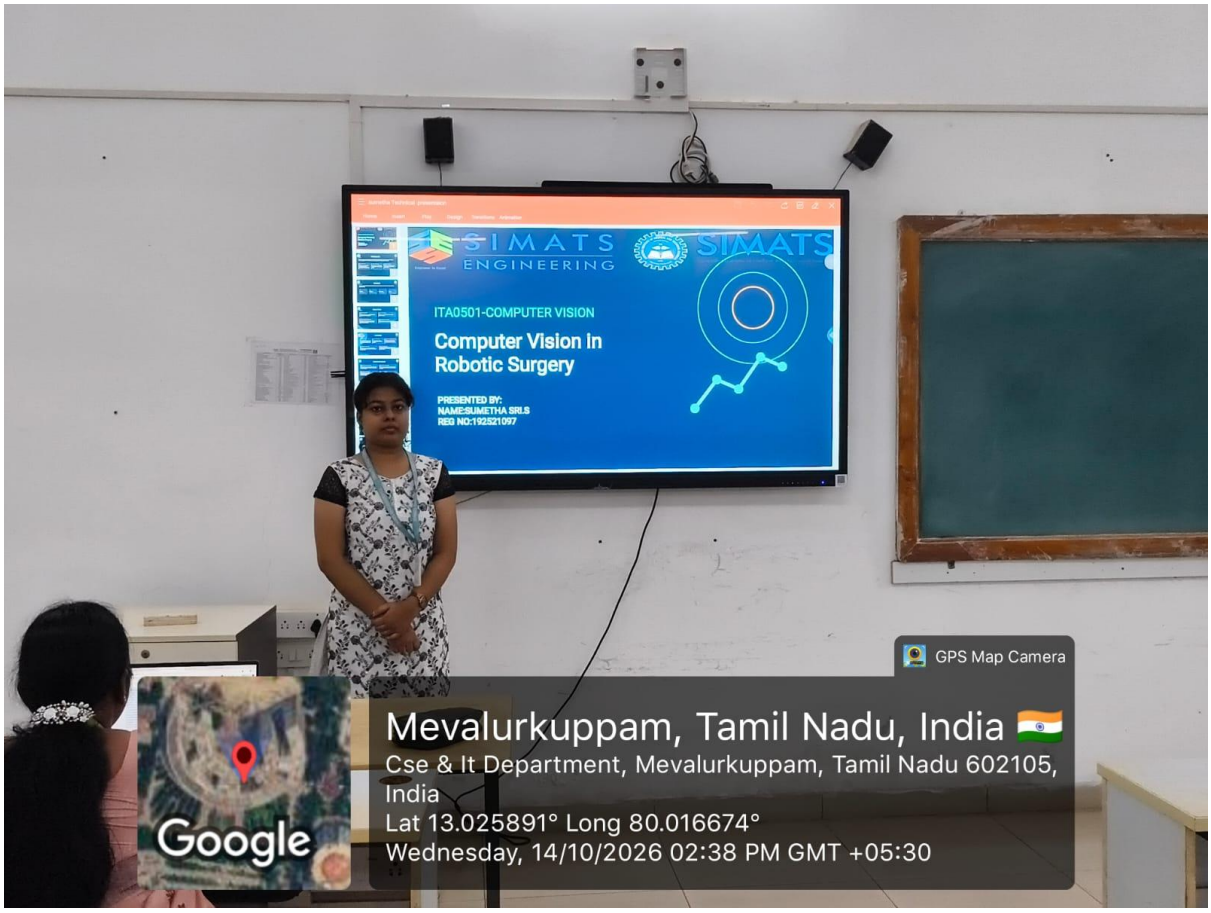

WORKING PRINCIPLE

Illustrative computer-vision overlay

What the system may do

- Detect the instrument in each video frame
- Draw a box or mask around the tool
- Estimate movement and direction
- Flag uncertainty or loss of tracking
- Display the result for the surgeon to interpret
