ACTIVITY – 2

SCENARIO- BASED ACTIVITY

1. Technique : Median Filter

Reason: Removes salt & pepper noise while preserving edges.

2. Technique : Gaussian filter

Reason: Reduces gaussian filter noise and smooths the image

3. Technique : Bilateral filter

Reason: Removes noise while preserving fine edges

4. Technique : Median filter

Reason: Removes scattered dots

5. Technique : Non-local Means Denoising

Reason : Reduces noise while retaining details
Removes grains.

6. Technique : Histogram Equalization

Reason: Improves Contrast

7. Technique : Color correction

Reason: Improves image appearance

8. Technique : Contrast Enhancement

Reason : Improves visibility of internal structure

9. Technique : Gamma Correction

Reason : Improves Brightness

10. Technique : Contrast Stretching

Reason: Expands the intensity range
